MISSION & VISION

We offer maximum guarantee to our customers, our profiles are tested one-by-one thanks to a manual tool and controlled by specialized people.

Triline ensures that its products are perceived with as little environmental impact as possible through adequate consideration to its industrial processes, and every aspect of manufacturing, components, sales & delivery chain.

A perfect example is use of Santoprene synthetic parts which contribute to reduced energy consumption, decreased chemical use & reduced manufacturing space when compared to other rubbers.

Triline's modular design provides easy maintenance & content updates without the need to replace the complete sign thus extending the sign's life cycle & positioning it as an Ecologically SMART CHOICE.

Triline is your professional partner with it's specialized & skilled personnel offering technical assistance with your projects using our most versatile, multifunctional systems. We are committed to be there with you every step of the way providing sales support all over the world.

All Triline® systems are unique and developed from scratch. The company's founding principles are based on continuous evolution of our products.

Triline® is committed to future developments and selects materials & accessories of superior quality, guaranteeing consistency & durability.

The systems can be used in built up environments around the world. The concept behind these systems offers an inexhaustible versatility in creating architectural building signs, exterior signs & illuminated displays.

Healthcare, transportation, education, sports, hospitality, banking, public sector, retail.

The signage helps the image and the character of a building not only as a decoration, but it has an important influence on the people.

Give to the environment a particular atmosphere and "taste" Triline sign systems. With your creativity and imagination you can realize every modular aluminium structure for indoor and outdoor.

TRIX-Triline-International BVBA is your supplier in way finding sign systems and components. We develop comprehensive innovative interior and exterior modular aluminum sign systems for commercial and public applications. The expertise of TRIX International / Triline constitutes in its technical know-how, top quality products and service transferred to all offices and partners worldwide.

Since 1988 CEO, Mr. Erik Broos-Godts, has been designing, creating and developing innovative, revolutionary and versatile modular aluminum sign systems of which Triline® is the most recent one. After an intensive research & development phase, the modular aluminum signage system Triline® was launched on the international market by Mr. Erik Broos-Godts.

TRIX International / Triline was founded and as owner of the system it now continues the success story of Triline® with an even wider and renewed range of products that offer complete solutions.

Triline® is a state of the art modular architectural aluminum signage system that not only offers innovative anti-theft/anti-vandalism features, but also entails amazing results in the field of timeless design and elaborated technical and application possibilities.

Continuous investment in research & development in order to launch new aluminum extrusions to follow the innovations made in the sectors of architectural signage and to satisfy the needs of its customers.

Our target is to win time and to provide you the best quality with less cost.

Triline® modular signs & displays production has the highest primary material in aluminum extrusion. Accessories are fabricated in Italy. Our quality is uniform to the European standards and we offer a large scope of products adjustable to your individual requirements. Selected materials and accessories with a superior quality, guaranteeing durability and stability of the product and at the same time offers competitive prices on an international level. This result is successfully accomplished by many years of study, research and experience in the field.

Triline® systems have been developed to cater and to serve better for the requirements with the best quality in the market of the signage industry. Provides a varied range of different designs in interior signs such as door signs, wall signs, directory signs, suspended and flag signs. And in past 2 years until present

new gamut multifunctional profiles has been added to Triline System for Indoor and Outdoor with special attention to banner, displays and light boxes.

Below are Triline product line:

- **ALLIANCE**
- **HI-TECH**
- **TRI-SIGN**
- **TRI-POST**
- **SPLENDID**

Each line product offers different possibilities of an attractive visual communication in the signage. Market and architectural designs that provides you a characterized by high durability, easy installation and stylish.

Our mission is to offer to our customers and partners a total solution in their innovative sign projects quality and professionalism is our motto.

Erik Broos-Godts

with Assorted Frame Options

FEATURES

A new technical reality.

Triline® Modular Signs & Displays has projected Hi-Tech, aluminium modular convex system, departing from the winning technology of Triline DeSign. The accurate design with unique characteristics, has made Hi-Tech a highly flexible, modular and dynamic convex sign system. Hi-Tech is different compared to other sign systems, because it's the first in the world that, started from one standard convex profile, offers four different sign shapes to its customers.

- Door signs/directory signs
- Flag and suspended signs
- Aluminium double sided end caps (2 mm thickness)
- Anti-theft features
- 6 standard convex profiles
- 62mm - 93mm - 124 mm - 155mm - 186mm - 217mm
- 5 variable insert profiles (square, round, ellipse)
- Synthetic end caps for convex signs
- Synthetic end caps for convex insert signs (square, round or ellipse)
- Double sided/triangular vertical displays
- Metal elliptical and triangular bases (4 mm thickness)
- Aluminium side-track system available in one slim shape for combinations with flat and convex profiles (insert/non-insert)

Convex Insert Wall Signs (Radius)

The convex profile is slide in the TLHTFIX (antivandalism) profile. You can extend the convex sign with insert profiles in 3 different looks: square, round and ellipse. Finish with synthetic single end-caps square (from 93 to 248 mm), round or ellipse (from 93mm to 297mm). Easy assembly.

Ideal for personnel signs, room identification, wall projection signs, emergency signage and more.

CONVERT INSERT WALL SIGN (Radius)

Assembly and Section Details

Convex Insert Wall Sign (Square)

The convex profile is slide in the TLHTFIX (antivandalism) profile. You can extend the convex sign with insert profiles in 3 different looks: square, round and ellipse. Finish with synthetic single end-caps square (from 93 to 248 mm), round or ellipse (from 93mm to 297mm). Easy assembly.

Ideal for personnel signs, room identification, wall projection signs, emergency signage and more.

TRI-SIGN™

With Ingenious Efficiency

FEATURES

An attractive off-the-shelf modular sign system that is well structured with variety of components combination.

Tri-Sign was created with versatility that provides unlimited design variation achieving the simple, aesthetic look with bold and strong features.

Tri-Sign gives also a modern appearance for indoor flexible wayfinding solution that can be used as wall mounted, projected and suspended application with sleek results of clean installation.

- Quick and Easy to Install
- Ready - Made Features
- Anti-Vandalism and Anti-Theft features
- Standard measurement from 52mm up to 840mm
- Offers a sophisticated alternative to snap frame

TRI-SIGN FLEX READY MADE (Wall Mounted)

FLEX is-of-the-shelf, prefabricate with sophisticated look by spring loaded versatile sign system. It Can be installed & effortlessly constructed with double sided tape or by using the adjustable wall mount component that fit for frequent sign updates requirement such as hospital, corporate offices etc.

TRI-SIGN FLEX READY MADE (Wall Mounted)

ASSEMBLY

ASSEMBLING

Trisign Flex ready made, wall mounted:

* Attached spring locked on the right side of the frame on TRIFLEX-3 Aluminum profile.

* Connect synthetic Angle on the left side of the frame on TRIFLEX-2 Aluminum profile.

* Reconnect 4 sides of frame for easy assemble, with TLSCRW on spring side.

MOUNTING POSSIBILITIES

- * Double Sided Tape
- * Glued with sticky plug

APPLICATIONS

- * Vinyl Lettering
- * Direct Digital Printing
- * Paper Insert

TRI-SIGN FLEX (Suspended)

Tri-sign Suspended sign is a contemporary sign that offer a stylish twist to create hanging directional system, and can be used either Tri-Sign system the FLEX or FIX application. Ideal for double sided sign and available in set of sizes for flexibility and durability.

POSSIBLE FRAME SIZES

TRI-SIGN flex Ready Made wall mounted frame sizes starts from 148.5mm x 420mm up to 210mm x 840mm

ASSEMBLING

Trisign Flex ready made, Suspended:

- * With Trisign Spring and bracket with assemble frame combined together to create a Flex or Clip suspension Frame Sign.
- * Connect synthetic Angle on the left side of the frame on TRIFLEX-2 Aluminum profile.
- * Reconnect 4 sides of frame for easy assemble, with TLSCRW on spring side.

MOUNTING POSSIBILITIES

- * Double Sided Tape
- * Glued with sticky plug

APPLICATIONS

- * Vinyl Lettering
- * Direct Digital Printing
- * Paper Insert

TRI-SIGN FLEX READY MADE (Projected))

Is a prestigious signage system with a stunning anodized finished and can be used either Tri-sign Flex or Tri-Sign Fix Application. Ideal for double sided and available in set of sizes for flexibility and durability.

TRI-SIGN FLEX READY MADE (Projected)

ASSEMBLY

ASSEMBLING

Trisign Flex ready made, Projected:

* With Trisign Spring and bracket with assemble frame combined together to create a Flex or Clip projected Frame Sign.

* Connect synthetic Angle on the left side of the frame on TRIFLEX-2 Aluminum profile.

* Reconnect 4 sides of frame for easy assemble, with TLSCRW on spring side.

MOUNTING POSSIBILITIES

* Double Sided Tape
* Glued with sticky plug

APPLICATIONS

* Vinyl Lettering
* Direct Digital Printing
* Paper Insert

TRI-POSTS™

Post & Panel, Totems, Pylons and much more

FEATURES

This item is the most flexible product for the multiple applications solutions, a feature that only Triline Systems is offering to the market, satisfying to a wide range of demands.

Solid everlasting and multifunctional.
The Tri-posts product line was created for demanding interior & exterior compositions.

This versatile system, merged or not with other materials, results in a creative and durable forms.

- 5 Standard post profile
- 5 Different standard bases
- Modular and durable
- Can be combined with various panel materials
- Can be combined with Alliance & Hi-Tech systems
- Can be combined with illuminated models
- Insertion of large digital prints possible
- Suitable for indoor and outdoor applications
- Ideal for all demands in architectural signs.

Pylon Sign

This item is the most flexible product for the multiple applications solution, a feature that only Triline Systems is offering to the market, satisfying to a wide range of demands.

PYLON SIGN

Assembly and Section Details

APPLICATIONS

- * Directional Pylon Signs
- * Pylon Corporate Signs

MOUNTING POSSIBILITIES

- * Using TLSV90 - Support standee is so easy to assemble.

SECTION DETAILS

- * Using TLSV90 - TLTE90 - 900 BASE
- Basic Colors
- Silver
- Gray
- * PROFILES have standard length of 3500 - 4500mm
- * Standard Finish:
- Mill
- Silver Anodized

Posts & Panels

2 standard posts of 60mm & 90mm with 1 slot, 4 standard profiles with two locking possibilities.

A fixation profile that makes any exterior creation possible.

			<div>Product Code: TLSCR9</div> <div>Length: M6 x 40mm</div> <div>Piece/Pack: 6 pcs /pack</div> <div>Finish: Stainless Steel</div> <div>Colour: Black, Grey</div>

WE ARE TRILINE®

Triline designs, produces and distributes state of the art modular architectural sign and display systems. Offering timeless design and elaborated multifunctional application possibilities.

YOUR SOLUTION

MULTIFUNCTIONAL

Interior & exterior sign solutions from simple door signs to illuminated pylons & display units

EASY AND FAST

Verses conventional fabrication, thus lower cost and quick hand over

VERSATILE

Highly modular & uniquely flexible even with mixed overall TRILINE range

PRODUCT GUARANTEE

On Triline extrusions & accessories require minimum maintenance

PATENTED PRODUCTS

Contributing to safety, security and sustainability. Equipped with anti-vandalism & anti-theft features

PRICE CONCIIOUS

Solutions for all budgets; Without any concessions to quality

TRILINE Products

Mill

Anodized

Powder Coated

OUR RANGE OF OUR SYSTEM

ALLIANCE™

HI-TECH™

TRI-SIGN™

TRI-POSTS™

SPLENDID™

CLASSIC IN APPROACH BUT TOTALLY MULTIFUNCTIONAL
Straight designs suitable for all architectural applications

HIGHLY STURDY AND TECHNICALLY DYNAMIC
Convex design with assorted frame options

BRACING ELEGANCE AND OPERATIONAL CONVENIENCE
Ultra slim frames with ingenious efficiency

MOST FUNCTIONAL POST BASED SYSTEM
Post and Panel, Totems, Pylons and much more

INNOVATIVE AND DYNAMIC
Slim designed signed boxes and display systems

Triline®
modular signs and displays
